Worksheet Answers - Day 1

Car Control

1. A
2. Kickdown is used in an automatic car. You will press the gas pedal all the way down and the car will automatically go down into a lower gear. Then the car will speed up quickly.
3. B
4. The national speed limit on a single carriageway is 60mph and the national speed limit on a dual carriageway is 70mph.
5. You must leave enough gap between your car and the car in front. On a dry road this will be 2-seconds. On a wet road it is doubled to 4-seconds. And on icy roads the gap is 10X the gap or 20-seconds.
6. Coasting downhill is unsafe because the car will speed up
7. Condition of tyres, the weather, the road surface, tiredness, alcohol, condition of brakes
8. D
9. Gears Lower Lower Lower – Higher on Ice
10. Lower gears in your car give you more power and engine braking.
